**OUTREACH FOR DEVELOPMENT OF THE OVERSIGHT PERFORMANCE AGREEMENT**

We are soliciting comments, recommendations or suggestions for topics from citizens, environmental groups, and industry for possible inclusion in our 2015 current Annual or Bi-Annual Performance Agreements for the programs in Maryland, Ohio, and Pennsylvania. Performance Agreements between OSM and the State and Tribal programs establish how oversight is conducted during each evaluation year(s). The topics should relate to the implementation of the approved Regulatory and Abandoned Mine Lands Programs.

Please submit your topics or requests for our consideration from March 1-30, 2014, by email or in writing to the contacts listed below. We thank you for your participation in this important process.
