

**PROJECT LOCATION AND DIRECTIONS**

The Neece Mine Drain Maintenance Project is located in Meigs County, Salisbury Township, Section 31 at 31841 Bailey Run Road. (LAT 39°01'44"N, LONG 82°05'09"W). From SR 7, turn on to SR 124 west, travel 1.1 miles to Bailey Run Road, turn right and travel 0.25 mile to the project site, located on the left (west) side of the road.

**PROJECT DESCRIPTION**

The intent of the project is to repair the clogged mine drain and re-establish a ditch to route the mine water to an existing culvert. Approved resoil will be needed in the landowners yard.

Major items in the Neece Mine Drain Maintenance Project will be: Mobilization & Access, Approved resoil, Debris Removal and Disposal, FLEX-A-MAT installation, and Site Restoration.

The Ohio Department of Natural Resources and/or its authorized representative reserves the right to adjust the size of the work area and the sequence of construction operations as necessary, based on conditions encountered during the implementation of the abatement program.

A mandatory pre-bid meeting will be held at the site on the date and time as published in the Notice To Bidders.
